Workwell Preparation Health and Safety Audit

This consultation will help the client prepare for a WSIB Workwell Audit. Our objective consultation will help the client identify inefficiencies in their workplace. Recommendations will be suggested and a confidential written report will be submitted to the client. This audit may also be used to enhance your current Health and Safety Program.

Some of the Major Workplace Risks Examined in this Program are:

Health and Safety Training

- Training Matrix and Requirements
- Roles and Responsibilities
- Evaluate the training
- Record of training
- Injury Incident Investigation
- Emergency Preparedness and Response
- Personal Protective Equipment
- Functions of committees/representatives
- Assigning responsibility for training delivery

Standards and Procedures

- Illness/injury and First Aid reporting
- Hazard Identification and reporting
- Emergency evacuation plan
- Proper use of Emergency equipment
- Refusal to Work
- Lock-out/Tag-out
- Confined Space
- Hot work

J.H. RYDER MACHINERY LIMITED
